## Environmental Policy

Alpha Vet International Ltd is a veterinary edtech and recruitment company which specialises in webinar based veterinary education and the placement of locums into veterinary practices. At Alpha Vet International Ltd, we strive to support vets throughout their professional career, by supplying high quality trusted services. We acknowledge that our operations influence the environment and have identified our key environmental aspects that contribute to our environmental and carbon footprint:

- Consumption of electricity, gas, water, and other fuels
- Waste generation
- Transport emissions
- Procured goods and services with their own environmental impact

Our board and senior management are committed to reducing the release of carbon by supplying a service to remove the need for travel generated by veterinary continuous education. Our business is strengthened by protecting the safety, health and environment of our employees, our customers, and the people of the communities in which we do business

A sustainable platform, we enable the sharing of industry environment beneficial best practices.

Our environmental commitment can be proven in our established aims and goals below:

- Compliance with all applicable standards, laws, requirements, regulations and public/customer expectations
- Monitoring our key resource usage and implementing conservation techniques to achieve our environmental targets
- Implement a waste/recycling policy
- Commitment to achieving Net Zero emissions by 2050
- Minimising unsustainable transport through the development of a travel plan
- Collaborating with suppliers to ensure they acknowledge and decrease the environmental impact of their products and transportation
- Hosting an annual Green Discussion Forum

We will continue to improve our environmental management system by working to the Investors in the Environment (iE) criteria, considering any changes in legislation, our organisation, and other factors. We will convey this policy to all our employees, ensuring that they are provided with training to increase awareness of environmental matters.

Luke Curtis is our Sustainability Champion and has designated responsibility for the day-to-day implementation of this policy.

Alpha Vet International Ltd will make this policy available when requested to interested parties including members of the public, including making a copy available on [www.thewebinarvet.com](http://www.thewebinarvet.com)
